Chris

Thank you for this and for the clarification of the numbers and the multiple phases of the project. I know Nancy is awaiting your call to walk her through it. I think it would be helpful to explain what we sent yesterday and how this fits into the big picture you have attached here. This is also the figure the County Manager reported at the May Board of Commissioners meeting and the one to which the Chairman referred in his statement.

Thanks again. Have a great day.

Kellie

Kellie:

Here is the updated sheet with what I believe to be everything. The initial spreadsheet that totaled \$196K was only for the subcontracts on the Ballpark (GMP 1). I have added a section capturing the GMP 2 subcontractors for the mixed use portion as of May, which is in the process of growing as work is released by the Braves. I also added the contract amounts for the enabling work and soft costs that is/was not contracted through AB2017. This is all I am aware of but there could be more that is not captured. Lastly, I added a section for AB2017's CM services. I hope this helps / makes sense. Please call if you have any questions!
